Quality Property with two Farm Houses.....

This property is a perfect example of mixed farming, be it breeding, grazing or cultivation and is also well known for the high black soil content. There are two 3 bedroom houses + a fully decked out shed with all the modern touches, which also opens up the avenue for a rental income. The property has multiple lock up garages and open car ports, stock yards, hay sheds and farm sheds, many rain water tanks, a bore and 5 minutes to Beaudesert town centre and the race course. The location of this property does not get any better and is also in the SDA approved area.
