3 1 2 809300 m2

199 Acres with Absolute Stunning Views

This 199 acre forest grazing property is a great property with a very old 3 bedroom cottage. The cottage would need quite a lot of work on it to be liveable. The property is well fenced and is watered by spring fed gullies, holes and dams. The spring fed gullies have some very good deep water holes. There is an old set of yards and some old sheds. The property consists of some open cleared country with a good balance of good useable timbered areas. The access to this parcel of land is great with a long road frontage and is approx. 35-40 minutes from Beaudesert. Make an enquiry today.....The property is genuinely priced to sell.

Price: \$420,000.00
