Don't waste another second thinking about it - buy it!

This beautiful property has it all to offer in terms of nature. Picturesque views, dotted with grass trees, ferns, orchids, rugged cliffs, open gum tree forests and meandering creeks: experience it all on your own property. Wander through the deep gorges, swim in the creeks and leisurely explore the rugged landscape. Spend your time spotting koalas, microbats, rock wallabies, parrots and song birds.

Explore the nearby Reynolds Creek Canyon from the front gate, Queen Mary Falls, or local markets, then relax sitting by the fire watching the sun setting over Mt Bell with the sound of kookaburras in the distance. Secluded and peaceful, but just 20mins to the Dugandan hotel outside of Boonah from the head road, it is well situated for exploring the surrounding Scenic Rim without being too far off the beaten track.
